## MICHELIN AND PORSCHE

### A SUCCESSFUL PARTNERSHIP FOR OPTIMUM PERFORMANCE

Michelin and Porsche have enjoyed close links since as far back as 1969. The partnership has in fact been significantly stepped up in the last decade – to the benefit of every Porsche enthusiast!

As part of this cooperation, Porsche relies on Michelin's expertise long before a vehicle is launched on the market. Well in advance of this final stage, the experienced tyre manufacturer develops specific products tailored precisely to Porsche models.

This ensures that the interaction between the chassis and tyres can be continuously optimised with precise fine-tuning. Only

these high-performance tyres receive the highly coveted N-marking.

The company's successes in motorsport demonstrate how perfectly orchestrated tyre and vehicle performance can push a vehicle to its limits. The passionate working relationship on the race track ensures that the technology is transferred to the road, forming the basis for the development of production tyres. It is no wonder then that many Porsche sports cars are already equipped with Michelin tyres when they leave the factory.

## FROM THE RACE TRACK TO THE ROAD

Tyres such as the MICHELIN Pilot Sport 4 S are among the fastest tyres approved for use on public roads.

State-of-the-art technologies, hugely durable high-performance fibres and unrivalled stability even at the highest speeds – Michelin innovations provide the perfect racing components for your Porsche. How well the two companies complement each other is demonstrated by a range of superb times that have been set in recent years by various Porsche GT models breaking records on the North Loop of the Nürburgring.

On the most recent and also fastest lap on 14 June 2021, a Porsche 911 GT2 RS

equipped with a Manthey Performance Kit completed the full 20.8 kilometre circuit in 6:43.300 on MICHELIN Pilot Sport Cup 2 R.

This was the fastest time ever recorded by a production car on road-legal tyres in the "Green Hell".

You too can experience the fascinating and successful working relationship between Porsche and Michelin, ensuring supreme performance every time you sit behind the wheel!

### BREAKING RECORDS TOGETHER:

- 14 June 2021
- Porsche 911 GT2 RS with Manthey Performance Kit
- MICHELIN Pilot Sport Cup 2 R
- Circuit: 20.8 kilometres
- Time: 6:43.300

## **BESPOKE TYRES FOR PORSCHE**

*THE PERFECT BLEND OF MICHELIN TYRES AND PORSCHE VEHICLES*

Three to four years before a new Porsche is launched on the market, Michelin starts working with Porsche to develop bespoke tyre specifications. This homologation process, as it is known, takes place alongside the vehicle development in three phases:

**TECHNICAL ANALYSIS**

2-3 months

**DEVELOPMENT OF TYRE PROTOTYPES AND TYRE TESTING**

2-3 months

**INDUSTRIALISATION OF TYRES**

2-6 months

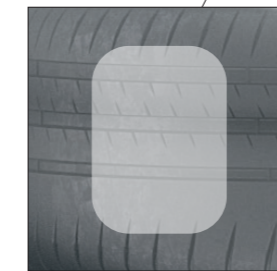

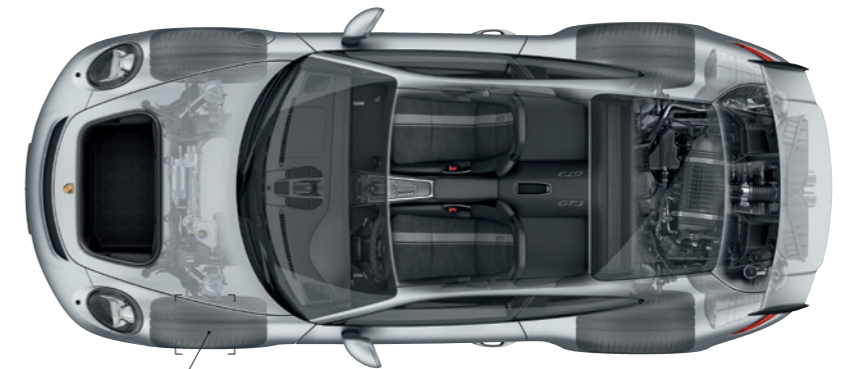

This close collaboration culminates in a tyre solution from Michelin which perfectly matches the specific performance requirements for the respective Porsche model. Ensuring maximum control of the vehicle that is designed for maximum driving enjoyment and comfort.

## **TYRES ARE A MATTER OF TRUST!**

*NO COMPROMISES ON PERFORMANCE*

The tyres are the only thing connecting a vehicle to the road. But the area of a tyre that is in contact with the road is no bigger than a postcard. This dictates the level of performance & safety in equal measure. This is why Porsche really puts the MICHELIN specifications to the test. Once the homologation process has been completed successfully, the "N-marking" indicates the original equipment approval from Porsche and is a seal of quality.

**PORSCHE RELIES ON N-SPECIFICATIONS FROM MICHELIN.**

Contact area of the tyre on the road

## THE PORSCHE N-MARKING

The Porsche model range is growing – and so is the need to provide suitable tyres for each series. Despite the fact that some tyre sizes are identical, a bespoke tyre with special rubber compounds is developed for each series. To make sure that customers always use the correct, Porsche-approved tyre, a new classification system for N-marked Porsche tyres was introduced. This is because only the very best bespoke tyres are good enough to combine the power of a Porsche with the highest level of safety.

Porsche works together very closely with leading tyre manufacturers and jointly develops the perfect type of tyre for every model range.

N-marked Porsche tyres have to satisfy the strictest criteria from Porsche: For example, the tyre development for the Porsche 992 involved testing 30,000 tyres and exposing them to the toughest weather conditions over 600,000 km from the Arctic Circle to Sicily.

## NOTICEABLE DIFFERENCE

Thanks to a custom-fit tyre geometry and special rubber compound, each set of N-marked Porsche tyres offers supreme quality that really impresses.

- Designed for short braking distances in all weathers
- Developed for maximum level of control and cornering stability
- Customised for the spring/damper system
- Optimised for stabilisers, differentials and control systems

The bespoke high-performance tyres which are jointly developed by Porsche are now

very easy to identify from their new model-specific N-markings. This prevents any mix-up between our approved tyres and conventional standard tyres or old N-marked tyres as soon as you look at them – and you have all the information you need right in front of you.

**For example, for the Porsche 992 this means:**

**N** – approved by Porsche

**A** – developed for the Porsche 992

**0** – the first generation

## MODEL-SPECIFIC MARKINGS

With each N-marked tyre it is very easy to identify which model it was developed for:

- The letter after the N indicates the model range.
- The number tells you the tyre generation, starting at 0.

911 Carrera*	starting with 992	NA 0, NA 1, NA 2 ...
718 Boxster / Cayman*	starting with new vehicle	NB 0, NB 1, NB 2 ...
Cayenne	starting with new vehicle	NC 0, NC 1, NC 2 ...
Panamera	starting with new vehicle	ND 0, ND 1, ND 2 ...
Macan		NE 0, NE 1, NE 2 ...
Taycan		NF 0, NF 1, NF 2 ...

\* The introduction of the range-specific additional letter is intended to make classification easier if there are tyre specifications with the same dimensions and tread for different Porsche models. Exceptions to this are the GT models for the 911 Carrera, and the Spyder and GT4 for the 718 Boxster/Cayman. These models retain the original Porsche N-marking (N0, N1, N2 ...).

FUEL EFFICIENCY

WET GRIP

EXTERNAL  
ROLLING NOISE

GRIP IN SNOW

FUEL  
EFFICIENCY

5 EFFICIENCY CLASSES FROM A  
(MOST EFFICIENT) TO E (LEAST  
EFFICIENT)

The **rolling resistance** is a key **factor affecting fuel efficiency**.

€ 172 <sup>(1)</sup> is the average reduction in fuel costs for a vehicle fitted with A-rated tyres compared with one equipped with E-rated tyres..

WET GRIP

5 EFFICIENCY CLASSES FROM A  
(SHORTEST BRAKING DISTANCE)  
TO E (LONGEST BRAKING DISTANCE)

The **wet grip** describes the **braking distance on wet roads**.

**9 m** is the average reduction in braking distance for a vehicle travelling at **80 km/h** and equipped with A-rated tyres compared with one fitted with E-rated tyres.<sup>(2)</sup>

EXTERNAL ROLLING  
NOISE OF THE TYRE  
ON THE ROAD

CLASSES OF ROLLING NOISE FROM A  
TO C AND VALUE MEASURED IN DB

ABC: Indicates the worst performance. The tyre produces rolling noises that are below the current limit<sup>(3)</sup>, but are higher than the limit<sup>(4)</sup> that will apply in the future.

ABC: The noise level of the tyre corresponds to the future limit<sup>(4)</sup> or is lower.

ABC: The noise level of the tyre is at least three decibels below the future limit<sup>(4)</sup>.

In the case of tyres with a corresponding marking, the following symbols are also shown on the tyre label:

INDICATION OF GRIP IN SNOW  
3-PEAK MOUNTAIN SNOWFLAKE (3PMSF)  
SYMBOL

INDICATION OF ICE GRIP  
ICE GRIP SYMBOL

(1) Based on savings of 150 litres of fuel over a distance of 40,000 km at €1.15 per litre (weighted average). The effect may change depending on the vehicle and driving conditions. Performance was measured in accordance with the test method set in the regulation UN ECE R117.  
(2) Performance of braking from 80 km/h to 20 km/h, measured in accordance with the test method set in the regulation UN ECE R117.  
(3) According to EU Directive 2001/43/EC  
(4) According to Regulation (EC) No. 661/2009

MICHELIN

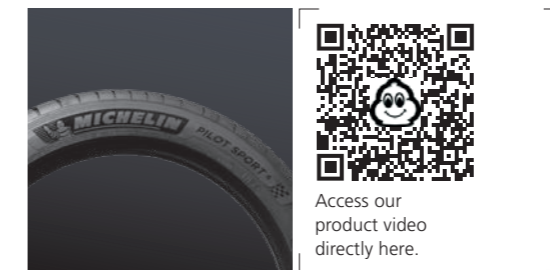

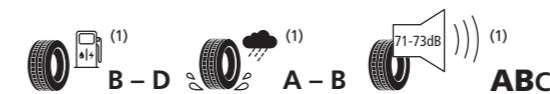

20-inch design optimised for rolling resistance

## MICHELIN *PILOT SPORT 4*

The road tyre for the Taycan

- Tread pattern specifically tailored to the Taycan; different to the standard tread of the MICHELIN Pilot Sport 4.
- Robust tyre structure. High wear resistance without compromising on comfort.
- 20-inch design optimised for rolling resistance. Helps to increase the vehicle's range.

Homologated for above model in 19 and 20 inches.

Access our product video directly here.

(1) Classification according to Regulation (EC) No. 740/2020 on the labelling of tyres

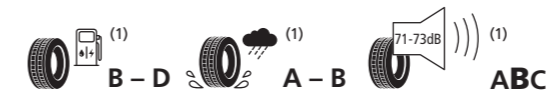

# MICHELIN *PILOT SPORT 4 S*

The sports tyre for the 911 Carrera (992/991 type), the 718 Boxster/Cayman (982/981 type) and the Cayenne (E3).

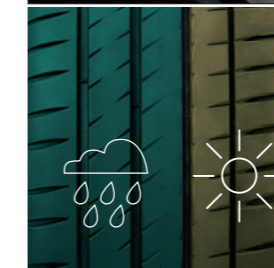

The experiences gained from the MICHELIN Pilot Sport Cup 2 were used in its development.

- Exceptional dry and wet grip
- High level of responsiveness
- Outstanding steering control

Optimisation of the ground contact area of the new MICHELIN Pilot Sport 4 S. Improvement in the force distribution and temperature evolution of the tread compared to previous tyre generations.

Pronounced rim protector strip, protecting all kinds of rims from damage.

(1) Classification according to Regulation (EC) No. 740/2020 on the labelling of tyres

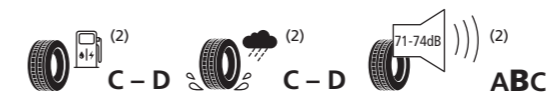

## MICHELIN *Pilot Sport Cup 2*

The Ultra High Performance tyre for the 911 GT models, the Cayman GT4 and the 918 Spyder – specially engineered for use on the race track (also approved for use on public roads).

- Faster laps with up to 50% higher mileage<sup>(1)</sup> on the race track thanks to the technologies developed by Michelin in endurance championships.

The MICHELIN Pilot Sport Cup 2 underscores its top performance with an eye-catching, high-quality look.

The MICHELIN PREMIUM TOUCH DESIGN gives this high performance tyre its unmistakable “velvet look”.

(1) Compared with its predecessor, the MICHELIN Pilot Sport Cup+.  
(2) Classification according to Regulation (EC) No. 740/2020 on the labelling of tyres.

As a special tyre for extremely dry conditions whose technologies were developed in the motorsport sector, the MICHELIN Pilot Sport Cup 2 R requires a warm-up phase just like in motor racing to ensure optimum performance.

# MICHELIN *Pilot Sport Cup 2 R*

The MICHELIN Pilot Sport Cup 2 R circuit tyre for the Porsche 991 GT3, 991 GT2 RS, 991 GT3 RS, 991 GT3 RS II and 992 GT3 with approval for use on roads.

- Designed for the proficient sports driver
- Extreme performance on a dry road
- Optimised specifically for use on a dry race track

To guarantee the best possible handling on race tracks and roads, a full set of four MICHELIN Pilot Sport Cup 2 R should always be fitted.

Please note the special instructions for using the MICHELIN Pilot Sport Cup 2 R.

GT2 RS	VA	HA
Standard tyre pressure up to Vmax	2,5 bar 250 kPa 36 psi	2,8 bar 280 kPa 41 psi
Performance tyre pressure up to 310 km/h	2,2 bar 220 kPa 32 psi	2,5 bar 250 kPa 36 psi

GT3 RS (I and II)	VA	HA
Standard tyre pressure up to Vmax	2,2 bar 220 kPa 32 psi	2,5 bar 250 kPa 36 psi

VA = front axle  
HA = rear axle

When the MICHELIN Pilot Sport Cup 2 R circuit tyre is used on the Porsche models listed above, the same recommended air pressures as for production tyres apply, with the exception of the following vehicle-specific recommended tyre pressures for the 991 GT2 RS, 991 GT3 RS and 991 GT3 RS II:

(1) Classification according to Regulation (EC) No. 740/2020 on the labelling of tyres

# MICHELIN TRACK CONNECT

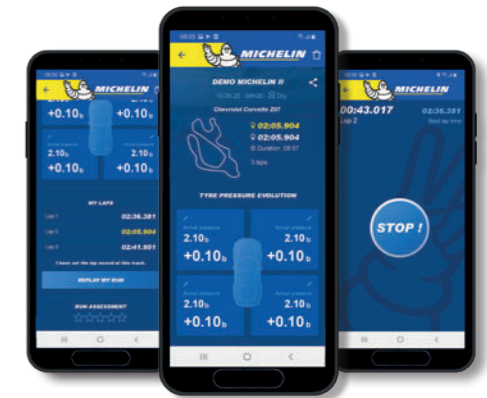

All the relevant performance data for your tyres at a glance!

## UPGRADE YOUR PERFORMANCE

BOOST PERFORMANCE ON THE RACE TRACK – BEFORE, DURING AND AFTER THE RACE:

UP TO 7.4 SECONDS FASTER AFTER 15 LAPS WITH UP TO 2X MORE LAPS COVERED<sup>(1)</sup>.

MICHELIN Track Connect is the innovative, networked tyre solution that provides data on the tyre pressure, tyre temperature and lots more in real time in conjunction with the MICHELIN Pilot Sport Cup 2 R Connect tyre to your smartphone or tablet via the MICHELIN Track Connect app.

### EXPERT

The must-have for enthusiastic racing drivers. Exclusive to vehicles fitted with MICHELIN Pilot Sport Cup 2 R Connect tyres (Connect ready<sup>(2)</sup>). Requires the installation of the MICHELIN Track Connect kit<sup>(3)</sup>.

### BASIC<sup>(4)</sup>

Measure your racing performance time. Measure your performance directly with your friends via the MICHELIN Track Connect app. The Basic version of the MICHELIN Track Connect solution is also compatible with vehicles that are not fitted with connected tyres.

### MICHELIN TRACK CONNECT BASIC FREE OF CHARGE!

Here you can find more details and download the app.

(1) Better performance with MICHELIN Track Connect – Internal study, MICHELIN Track Connect on a Porsche 991 GT3 RS, fitted with 265/35ZR20 and 325/30ZR21 in Andalusia (11/2019).  
 (2) Connect ready: The tyre has a special recording box, and the user just has to insert the MICHELIN Track Connect sensors to connect the tyre.  
 (3) The MICHELIN Track Connect starter kit includes a receiver, four sensors, a cigarette lighter adapter, a set of power cables, and a mobile phone holder for the windscreen.  
 (4) The Basic version only provides access to the smartphone app and to functions that do not require MICHELIN Pilot Sport Cup 2 R Connect tyres to be connected.

Directional tread pattern

PREMIUM TOUCH  
tyre wall

## MICHELIN *PILOT ALPIN* 5

The high-performance winter tyre for the 911 (992 type)

- Outstanding performance on dry, wet and snowy roads thanks to a new, directional tread pattern.
- High resistance to aquaplaning due to centre groove.
- Reduction in rolling resistance by using the latest tread compounds with functional elastomers.

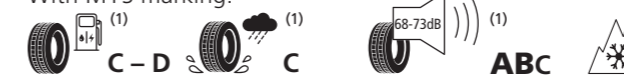

## MICHELIN *PILOT ALPIN* 5 SUV

The high-performance winter tyre for the Cayenne (9YA type) and the Macan (95B type)

- Porsche-specific tread pattern, derived from the MICHELIN Pilot Alpin PA4 N1 for the 991 II
- The right balance on snow both in the longitudinal direction (traction, tracking stability) and in the transverse direction (cornering, lateral guidance)
- Tyre wall with "velvet look" thanks to MICHELIN PREMIUM TOUCH

With M+S marking.

## FUEL & ENERGY CONSUMPTION AND EMISSIONS OF PORSCHE VEHICLES

### 911 Carrera

Fuel consumption in l/100 km: urban 12.9 · highway 7.4 · combined 9.4 l (NEDC); combined 10.8 – 10.3 (WLTP); CO<sub>2</sub> emissions in g/km combined: 215 (NEDC); 245-233 (WLTP); correct as of 07/2021

### 911 GT3

Fuel consumption in l/100 km: urban 19.2 · highway 9.9 · combined 13.3 – 12.4 (NEDC); combined 13.0 – 12.9 (WLTP); CO<sub>2</sub> emissions in g/km combined: 304 - 283 (NEDC); 294 - 293 (WLTP); correct as of 07/2021

### 718 models

718 Cayman: Fuel consumption in l/100 km: urban 11.8 · highway 6.9 · combined 8.7 – 8.1 (NEDC); combined 9.7 – 8.9 (WLTP); CO<sub>2</sub> emissions in g/km combined: 199 - 185 (NEDC); 220 - 201 (WLTP); correct as of 07/2021

718 Boxster: Fuel consumption in l/100 km: urban 11.8 · highway 6.9 · combined 13.3 – 12.4 (NEDC); combined 13.0 – 12.9 (WLTP); CO<sub>2</sub> emissions in g/km combined: 304 – 283 (NEDC); 294 – 293 (WLTP); correct as of 07/2021

### 718 Cayman GT4

Fuel consumption in l/100 km: urban 15.0 · highway 8.5 · combined 10.9 – 10.2 (NEDC); combined 11.1 – 10.7 (WLTP); CO<sub>2</sub> emissions in g/km combined: 249 - 232 (NEDC); 251 – 242 (WLTP); correct as of 07/2021

### Panamera GTS

Fuel consumption in l/100 km: urban 15.4 · highway 8.2 · 8.0 · combined 10.9 – 10.7 (NEDC); combined 13.1 – 12.1 (WLTP); CO<sub>2</sub> emissions in g/km combined: 249 - 244 (NEDC); 296 - 275 (WLTP); correct as of 07/2021

### Panamera Turbo S E-Hybrid

Fuel consumption combined in l/100km: 2.7 (NEDC); 2.9 – 2.7 (WLTP, weighted); CO<sub>2</sub> emissions combined in g/km: 62 (NEDC); 66 - 62 (WLTP, weighted); power consumption combined in kWh/100 km: 21.8 (NEDC); 24.6 – 24.0 (WLTP, weighted); electric range according to WLTP in km: 48 - 50 (EAER) · 49 - 50 (EAER City); correct as of 07/2021

### Macan models

Macan GTS: Fuel consumption in l/100 km: urban 12.1 · highway 8.0 · combined 9.6 (NEDC); combined 11.8 – 11.3 (WLTP); CO<sub>2</sub> emissions in g/km combined: 218 (NEDC); 268 – 255 (WLTP); correct as of 07/2021

Macan S: Fuel consumption in l/100 km: urban 11.4 · highway 7.5 · combined 8.9 (NEDC); combined 11.8 – 10.7 (WLTP); CO<sub>2</sub> emissions in g/km combined: 204 (NEDC); 267 - 243 (WLTP); correct as of 07/2021

### Cayenne models

Cayenne: Fuel consumption in l/100 km: urban 12.8 · highway 8.0 – 7.8 · combined 9.4 – 9.2 (NEDC); combined 12.5 – 11.5 (WLTP); CO<sub>2</sub> emissions in g/km combined: 215 - 210 (NEDC); 283 - 259 (WLTP); correct as of 07/2021

Cayenne S: Fuel consumption in l/100 km: urban 12.8 · highway 8.0 – 7.8 · combined 9.8 – 9.7 (NEDC); combined 12.9 – 11.8 (WLTP); CO<sub>2</sub> emissions in g/km combined: 223 - 220 (NEDC); 292 - 268 (WLTP); correct as of 07/2021

Cayenne GTS: Fuel consumption in l/100 km: urban 15.3 – 14.7 · highway 9.1 – 9.1 · combined 11.4 – 11.2 (NEDC); combined 14.1 – 13.3 (WLTP); CO<sub>2</sub> emissions in g/km combined: 260 - 255 (NEDC); 319 - 301 (WLTP); correct as of 07/2021

### Cayenne E-Hybrid

Fuel consumption combined in l/100km: 2.5 – 2.4 (NEDC); 3.7 – 3.1 (WLTP, weighted); CO<sub>2</sub> emissions combined in g/km: 58 - 56 (NEDC); 83 - 71 (WLTP, weighted); power consumption combined in kWh/100 km: 22.0 – 21.6 (NEDC); 26.5 – 25.1 (WLTP, weighted); electric range according to WLTP in km: 41 - 44 (EAER) · 44 - 48 (EAER City); correct as of 07/2021

### Taycan

Power consumption combined in kWh/100 km: 28.7 – 28.0 (NEDC); 25.4 – 20.4 (WLTP); CO<sub>2</sub> emissions combined in g/km: 0 (NEDC); 0 (WLTP); electric range in km: 354 – 484 (WLTP) · 382 – 521 (WLTP urban); correct as of 07/2021

ALL SPECIFICATIONS ARE BASED ON REGULATION (EC) NO. 740/2020 ON THE LABELLING OF TYRES:

### Fuel efficiency class

5 efficiency classes from A (most efficient) to E (least efficient).

### Wet grip class

Braking distance on wet roads. 5 efficiency classes from A (shortest braking distance) to E (longest braking distance).

### Class of external rolling noise and measured value (dB)

3 efficiency classes from A (best performance) to C (worst performance).

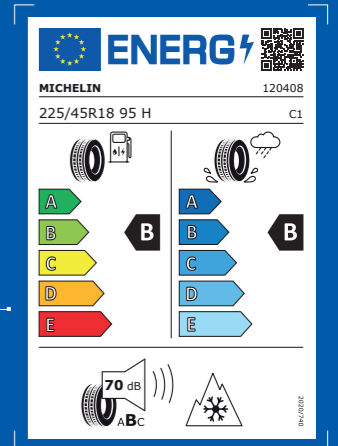

### Grip in snow

3-Peak Mountain SnowFlake (3PMSF) symbol. The tyre satisfies the minimum requirements for grip in snow according to UNECE Regulation No. 117.

### Ice grip

Ice grip symbol. Prior to adoption of the ISO standard 19447, the ice grip is tested using reliable, accurate and reproducible methods which reflect the generally acknowledged state of the art.

## MICHELIN'S COMMITMENT TO SUSTAINABILITY

Embracing its responsibility to future generations, Michelin works continuously with its partners and suppliers to optimise the introduction and application of resource-conserving technologies, processes and concepts across all phases of a tyre's life.

### RAW MATERIALS FOR TYRE PRODUCTION

- Sustainable production of natural rubber

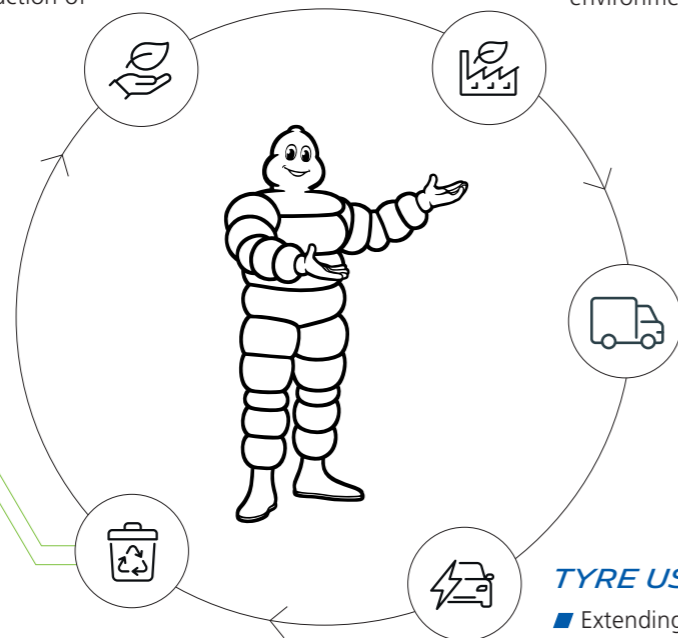

### TYRE PRODUCTION

- Continuous reduction of the 'environmental impact'

### ENERGY RECOVERY

### MATERIAL RECYCLING

### END OF THE TYRE'S LIFE

- Michelin works with its partners at a global level to develop systems for recovering and recycling raw materials.

### TYRE LOGISTICS

- Reduction in the carbon footprint when transporting semi-finished and finished products

### TYRE USE

- Extending the life of the tyre and reducing CO<sub>2</sub> emissions by optimising the rolling resistance

## MICHELIN & PORSCHE SUSTAINABILITY AS A SHARED PHILOSOPHY

The cooperation partners are driving forward the introduction of sustainable practices right across the value chain for Porsche vehicles and tyre solutions from Michelin.

Application examples in two phases of the product life cycle for MICHELIN tyres:

### TYRE PRODUCTION

- One of the main production sites for MICHELIN N-specifications, the "Les Gravanches" plant in France, already adopts carbon-neutral working practices in the production of high-performance tyres for Porsche vehicles.

### TYRE USE

- Optimising the rolling resistance of MICHELIN N-specifications is one of the key goals of Michelin & Porsche in developing tyres together. A perfect example of this is the MICHELIN Pilot Sport 4 with NFO-marking in the 20-inch version for the Porsche Taycan.
